

16 October 2014

Mr Shane Humpherys
Southern Beaches Conservation Society
11 Gully Road
DODGES FERRY TAS 7173

Dear Mr Humpherys

Copping Landfill Category C Cell

Southern Waste Solutions is keen to engage with those in the community who have expressed concerns about the C cell development.

As a result, we are contacting those in the community who have spoken out with an open offer for a personal briefing with Dr Ian Woodward of Pitt & Sherry, who developed the C cell's concept design and management plan. Dr Woodward will be able to answer any questions that you might have about the development.

I look forward to hearing from you in the near future and can be contacted on 0408 253 770, or swstas@me.com to organise the meeting.

Yours sincerely

Christine Bell
Chief Executive Officer
