Dear Mr McGlone

Copping Landfill Category C Cell

Southern Waste Solutions is keen to engage with those in the community who have expressed concerns about the C cell development.

As a result, we are contacting those in the community who have spoken out with an open offer for a personal briefing with Dr Ian Woodward of Pitt & Sherry, who developed the C cell's concept design and management plan. Dr Woodward will be able to answer any questions that you might have about the development.

You are also welcome to visit the site for a briefing on the design and operation of the current landfill, as well as the new secure cell.

I look forward to hearing from you in the near future, and can be contacted on 0408 253 770, or swstas@me.com to organise a meeting.

Yours sincerely

A handwritten signature in black ink, appearing to read "C. Bell", with a long, sweeping underline.

Christine Bell
